No. 52.

CENTRAL OFFICE,

Bangalore. 4th January 1898.

From

The Chief Engineer of Mysore,
Bangalore.

To The Secretary to the Government of Mysore
General and Revenue Departments
Bangalore

SIR,

With reference to Government Proceedings No. 7340-1 / J. 835 dated 23rd ultimo, forwarding estimate and plan received from the Inspector General of Prisons for constructing Carpenters' Shed, Bath Room, and a Harbury's Patent Privies in the central Jail at Bangalore and requesting me to state whether I can find funds for the work from the Budget grant at my disposal and arrange for the execution of the work by Departmental agency, utilizing as much Jail labour as is available;-

I have the honor to inform you that there is no provision for the work in the current year's P. W. Budget, and with the very heavy demands under "Civil Buildings", it will not be possible to find a place for the work in the final Budget; but as it is represented to be "very urgent and necessary" (vide concluding para of Report), it might be undertaken

undertaken now if Government will sanction outlay to be passed over Provincial grant, in the event of there being no general savings to cover the same. I do not myself consider the above works, without which the Jail has done very well for many years, can be termed "very urgent".

II. In connection with these proposals involving immediate considerable outlay of a permanent character, the possibility of the removal of the Jail altogether before very long, to a more suitable and distant site should be kept in mind.

III. The enclosures are returned.

I have the honor to be,

Sir,

Your most obedient servant

C. Lowe. Colonel.

Chief Engineer of Mysore,
Public Works Department.

From

The Superintendent
Central Jail

To

The Inspector General of Prisons in Mysore
Bangalore

Sir,

I have the honour to bring to your notice the unsatisfactory state of the Central Jail cells which at present anybody at liberty in the yard can have access to, also of the dangerous state on account of the doors opening inwards. I would therefore beg to make the following suggestions:—

(1) Turn the doors so that they open outwards instead of inwards.

(2) Erect an iron railing with gates at either end of the passage.

3. Re-erect the sleeping rials inside the cells so that the ground ventilator will pass underneath them and so prevent anything being passed into or out of the cell.

(4) Build screen-walls behind the cell blocks so as to allow of nobody having

access to the back of the cell.

I would further suggest that the Jail offices be moved to the tower around which suitable offices could be built, the present offices being used for ration rooms. Trusting that this will meet with your approval and that you will move Government to carry out the same.

I have the honour to be
Sir,
Your most obedient servant.

(Signed) H. H. Sparkes.
Superintendent
Central Jail.
